

Warsaw Wind Energy Storage

Overview

What happened to energy storage in Poland?

The Energy Regulatory Office said in a report last year on electricity storage in Poland that, as a result of the main power market auctions for 2021-2028 and the supplementary auctions for 2012-2025, contracts for energy storage with a total capacity of 9.5 GW were concluded.

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

Why do we need energy storage facilities in Warsaw?

In summary, the construction of energy storage facilities in Warsaw is a significant step towards enhancing the city's energy infrastructure, supporting the integration of RES, and ensuring a stable and secure power supply for its residents. This article was prepared by Institute of Fluid-Flow Machinery Polish Academy of Sciences.

Will Warsaw benefit from the construction of ten electricity storage facilities?

Warsaw is going to benefit from the construction of ten electricity storage facilities, thanks to a funding boost of over PLN 12 million from the National Fund for Environmental Protection and Water Management (NFOŚiGW).
