

Warsaw household solar container battery subsidy

Overview

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOŚiGW.

What are the requirements for a photovoltaic system in Poland?

6□ Balcony PV sets. 7□ Other devices approved for use in Poland. All photovoltaic installations must be connected to the national power grid. The capacity of the energy storage systems funded under the program must be at least 1.5 times the peak power (kWp) of the PV installation.
