

Wellington solar Module Project

Overview

What is the Wellington North solar project?

The Wellington North solar project is a 400MW project proposed to be built by British solar developer Lightsource bp in New South Wales (NSW), Australia. Lightsource bp secured the planning approval from the NSW's Department of Planning, Industry and Environment for the new solar power project in May 2021.

What will happen if a solar farm is built in Wellington?

land will be lost. This is the 5th solar farm either progressing or proposed for the Wellington area, one just 3km away. As well there are two wind farms being developed. The beautiful Wellington Valley is turning into an industrial zone. The peaceful rural views will be destroyed. Land in the vicinity of the solar farm will be devalued.

When will the Wellington solar project start?

Construction on this project commenced in December 2019. Interested parties will be able to find all the information they need about the Wellington solar project here. The solar farm is situated on 316 hectares of grazed agricultural land, which has predominantly been used for sheep and cattle grazing (pictured left).

Who are Wellington solar installers?

Email: info@greensparksolar.co.nz Our Wellington Solar Installers are fully qualified electricians with specialist training and experience in off grid solar installation. We do off grid solar power installations for tiny houses and batches as well as large homes, farms and life style blocks up to an industrial size.
