How does solar energy work in Wellington?

Wellington's sunlight ensures that solar panels can consistently produce a substantial amount of clean energy. The electricity produced by solar panels is in the form of DC current, while most homes and businesses in Wellington use alternating current (AC). To make the solar energy usable, solar inverters are employed to convert DC into AC.

Why should you choose a solar company in Wellington?

With over 1,000 installations nationwide, their Wellington team is known for engineering expertise and lifetime customer support, delivering sustainable energy solutions across the region. They provide grid-tied, hybrid, and off-grid solar systems for residential and commercial properties.
