

# **Western Europe Solar Container 100kWh Price Reduction**

## Overview

---

Will the European solar market grow in 2025?

Image: sun.store. In 2024, the European solar market saw module prices drop month after month, while still adding a record volume of solar capacity. This price drop in solar equipment could drive demand up across Europe in 2025, and spur growth in several emerging markets, such as Poland, Hungary and Greece.

Why did solar prices drop in 2024?

“Challenges remain, including grid connectivity issues, negative energy prices caused by spikes in solar production and competition from other affordable energy sources,” says Krawiec-Rokita. Image: sun.store. In 2024, the European solar market saw module prices drop month after month, while still adding a record volume of solar capacity.

Will a price drop in solar equipment drive demand up in 2025?

This price drop in solar equipment could drive demand up across Europe in 2025, and spur growth in several emerging markets, such as Poland, Hungary and Greece. PV Tech spoke to Agata Krawiec-Rokita, CEO of solar wholesaler sun.store, about the 2024 performance, and 2025 outlook, of European solar.

What is PV moduletech Europe 2025?

PV ModuleTech Europe 2025 is a two-day conference that tackles these challenges directly, with an agenda that addresses all aspects of module supplier selection; product availability, technology offerings, traceability of supply-chain, factory auditing, module testing and reliability, and company bankability.
