

# **What are the independent energy storage power stations in Krakow Poland**

## Overview

---

Are power plants in Poland still a big part of the energy sector?

Power plants in Poland are still a big part of the Polish energy sector. Energy.instrat.pl team prepared open database on power plants and CHP's, which is a great starting point of all energy transition analyses. In addition to updating the data for 2020-2023, the database has gained new columns with more information and new functions.

What is the largest battery energy storage facility in Poland?

With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe. The contractor on the project will be LG Energy Solution Wrocław.

What is the most advanced energy storage project in Poland?

The most advanced energy storage project in the PGE Group's portfolio is the Żarnowiec Energy Storage Facility. With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe.

How many GWh of energy storage capacity will Poland have by 2035?

In a bid to tackle the challenge of the growing electricity production from renewable energy sources, the Polish utility is looking to add more than 10 GWh of energy storage capacity by 2035. Its plans involve more than 80 projects, the value of which is estimated at around PLN 18 billion (\$4.7 billion).
