

When will the 5G Chinese base station of Romania be built

Overview

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

Will Romania partner with China on 5G?

In January 2020, the US Embassy in Romania issued a statement emphasizing that companies connected to an authoritarian government like China could not be trusted. In November 2020, the former Prime Minister officially stated that Romania would not partner with China on 5G.

How many 5G base stations are there in India?

Citing that the country has built a staggering 4.19 million 5G base stations, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.
