

Wholesale bess storage system in Italy

Overview

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having an average capacity of less than 20 kWh.

What is the business case for Bess in Italy?

Revenue Streams for BESS: The business case for BESS in Italy is underpinned by four main revenue streams: wholesale trading, the Ancillary Services Market (MSD), the Capacity Market (MC), and the new energy storage subsidy scheme (MACSE).

Is Bess a good investment in northern Italy?

While Northern Italy currently has the largest installed BESS capacity in the country, a build-out of RES in the South is increasing energy price volatility, creating a more compelling investment case for BESS in this region.

What policies bolster the Italy Bess market?

Some notable policies bolstering the Italy BESS market include: Italian National Energy and Climate Plan (PNIEC): Italy's PNIEC outlines the country's energy and climate goals, including targets for renewable energy expansion and greenhouse gas emissions reduction.

Wholesale bess storage system in Italy
