

# **Wholesale of wind-resistant mobile energy storage containers**

## Overview

---

What is a mobile solar container system?

The mobile solar container system includes solar panels, storage batteries, inverter, mounting brackets, and accessories. Solar panels collect energy from the sun and store it in the battery bank, and the inverter converts it to AC power for use.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO<sub>4</sub>) combined with an intelligent 3-level battery management system (BMS);.

Does a mobile solar container work with a lithium battery storage container?

The mobile solar container is designed to work seamlessly with lithium battery storage containers, allowing for efficient energy storage and use. This compatibility makes storing solar power easier when sunlight is unavailable. Lifespan is over 10 years old with reliable materials.
