

# Wind power energy storage leader

## Overview

---

Do energy storage systems work with solar and wind?

In the growing world of energy storage, there are some companies whose individual stars have risen to the top; some of them have found creative and scalable storage systems to work in conjunction with solar and wind.

Who is China's Sungrow Power Supply?

China's Sungrow Power Supply Co. Ltd. Sungrow is a top supplier of energy storage systems and inverter solutions. Sungrow's significant contribution in promoting a sustainable future has been recognized by BloombergNEF, which ranks the company among the top five global integrators of battery energy storage systems in 2024.

What are the world's largest battery storage projects?

The Hornsdale Power Reserve and the Victorian Big Battery are two of the largest battery storage projects in the world and were built by the French company Neoen, an independent renewable energy producer. Such projects demonstrate the promise of grid services offered by large storage solutions such as energy arbitrage and frequency control. 9.

Are battery energy storage systems essential grid infrastructure?

Battery energy storage systems (BESS), once seen as promising add-ons to renewables, are now considered essential grid infrastructure—tested during blackouts, storms, and surging demand curves. One of the clearest trends shaping this change is the prioritization of availability over capacity.
