

Withdrawable circuit breaker in Malaysia

Overview

Why is Malaysia a good location for circuit breaker production?

Malaysia's strong electronics manufacturing industry and strategic location make it a prime location for circuit breaker production. According to the Malaysian Investment Development Authority (MIDA), the country is a major player in the global semiconductor market and has a significant presence in the electronics industry.

Why do we need reliable circuit breaker suppliers in Malaysia?

It is critical for us to have reliable suppliers in Malaysia for our circuit breaker requirements. Circuit breakers are the incumbents of electrical devices, which automatically cease electric power transmission when any sort of short circuit occurs. This way, not only do we protect devices but also prevent users from expensive repairs.

What are the different types of circuit breaker?

All the circuit-breakers, both three-pole and four-pole, are available in the fixed version; sizes T4 and T5 in the plug-in version and T4, T5, T6, and T7 also in the withdrawable one. High values of short circuit breaking capacity are guaranteed at different voltage levels, without compromising overall dimensions.

Who is THK circuit breakers?

THK is a leading electrical product manufacturer based in Kuala Selangor, Malaysia, with a global reach. Their highly skilled development team specializes in producing top-quality circuit breakers for a range of applications.
