

Zambia Home Solar Lights

Overview

Which companies offer solar home systems in Zambia?

In Zambia, Vitalite offers pay-as-you-go home systems using modern mobile technology to help low-income households. Aurora Power Solutions also operates in the region, focusing on solar power.

What is the main source of lighting in Zambia?

Across Zambia, in rural and urban households, the main source used for lighting is the candle (27.7% in 2010), followed by electricity from the public grid (22%), paraffin (20.3%) and solar power (2.9%) (, 25ff.). In rural households, electricity as a source of lighting is used by 3.1% of households only, contrary to 49.8% in urban areas.

Is there a solar market in Zambia?

Yes, the Zambian solar market is growing. Although it is still relatively small compared to countries like Tanzania, there is much room for solar to grow due to the increasing electricity demand in Zambia. Currently, 95% of the electricity supply comes from hydropower, with less than 1% from other renewable sources.

Does Zambia need solar power?

Zambia has a high potential for solar power and the sector is growing. Right now, Zambia mainly depends on hydropower, but droughts have made this source less dependable. Combined with the increase in electricity demand, a new renewable source like solar power is desirable.
