

Zambia Tile solar

Overview

Is Zambia's largest solar project ready to be commissioned?

The project, billed as the largest grid-connected solar facility in Zambia and the biggest of its kind in sub-Saharan Africa outside South Africa, is now ready to be commissioned. According to a statement from the company, plans are now underway to develop a second 100 MW phase at the site.

Where is the largest solar plant outside South Africa?

Zesco has completed the 100 MW Chisamba solar farm in southern Zambia and has launched plans for a second 100 MW phase at the site, now home to sub-Saharan Africa's largest grid-connected solar plant outside South Africa. State-owned power company Zesco has completed the 100 MW Chisamba solar farm in southern Zambia.

How much solar power does Zambia have?

Zambia's cumulative solar capacity had reached 196 MW by the end of 2024, up from 134 MW at the end of 2023, according to figures from the International Renewable Energy Agency (IRENA). This content is protected by copyright and may not be reused.

Is there a solar market in Zambia?

Yes, the Zambian solar market is growing. Although it is still relatively small compared to countries like Tanzania, there is much room for solar to grow due to the increasing electricity demand in Zambia. Currently, 95% of the electricity supply comes from hydropower, with less than 1% from other renewable sources.
