

Zsc1500 solar inverter

Overview

What is a 1500V solar inverter?

This 1500V solution launched in early 2017 is ideal for system integrators and end users who require high-performance solar inverters for large photovoltaic plants and are interested in reducing installation time and the overall complexity of the plant to enhance power production and performance.

What is a 1500 VDC B series inverter?

Latest generation electronics These 1,500 Vdc B Series inverters integrate an innovative control unit that runs faster and performs a more efficient and sophisticated inverter control, as it uses a last-generation digital signal processor. Furthermore, the hardware of the control unit allows some more accurate measurements.

What is PCs gs1500v?

PCS GS1500V solution launched in early 2017 is ideal for system integrators and end users who require high-performance solar inverters. Discover more.

What is a PCs inverter?

Innovative technology The PCS is based on the state-of-the-art inverter GS1500, designed for direct outdoor installation (IP54 and NEMA 3R) with an innovative cooling system which significantly reduces system losses offering one of the highest efficiencies on the market today. Indoor solutions and/or water cooling are also available upon request.
